

## Designer stainless steel wall-mounting cases

The Design-Line wall-mounting case will impress you with its construction characteristics.

The enclosure series for receiving electric and electronic components is both functional and aesthetic. Design-Line cases are all-purpose wall-mounting or outdoor cases.

The service portfolio also includes modifications such as extension to 19" housings or modification to fixed housings. The following stainless steel materials and protection classes are available: 1.4301, 1.4404, 1.4571, IP 65.

Individual customization of stainless steel terminal boxes, cases and cabinets provide the perfect solution for every need. They offer excellent, cost-effective value starting at just one piece.
