

## Wall-mounting cases PC-cabinet BDE

### PC-wall-mounting cases for hygiene applications and wet areas

In hygiene applications, such as food, beverage or pharmaceutical industries operating data are also often collected and processed by pc. Therefore the pcs need to be protected by corresponding enclosures, which can be included in the daily cleanings.

For these requirements we offer the perfect solution.

Triple partition for

- Monitor up to 17"/Desktop PC
- Keyboard/Mouse
- Printer

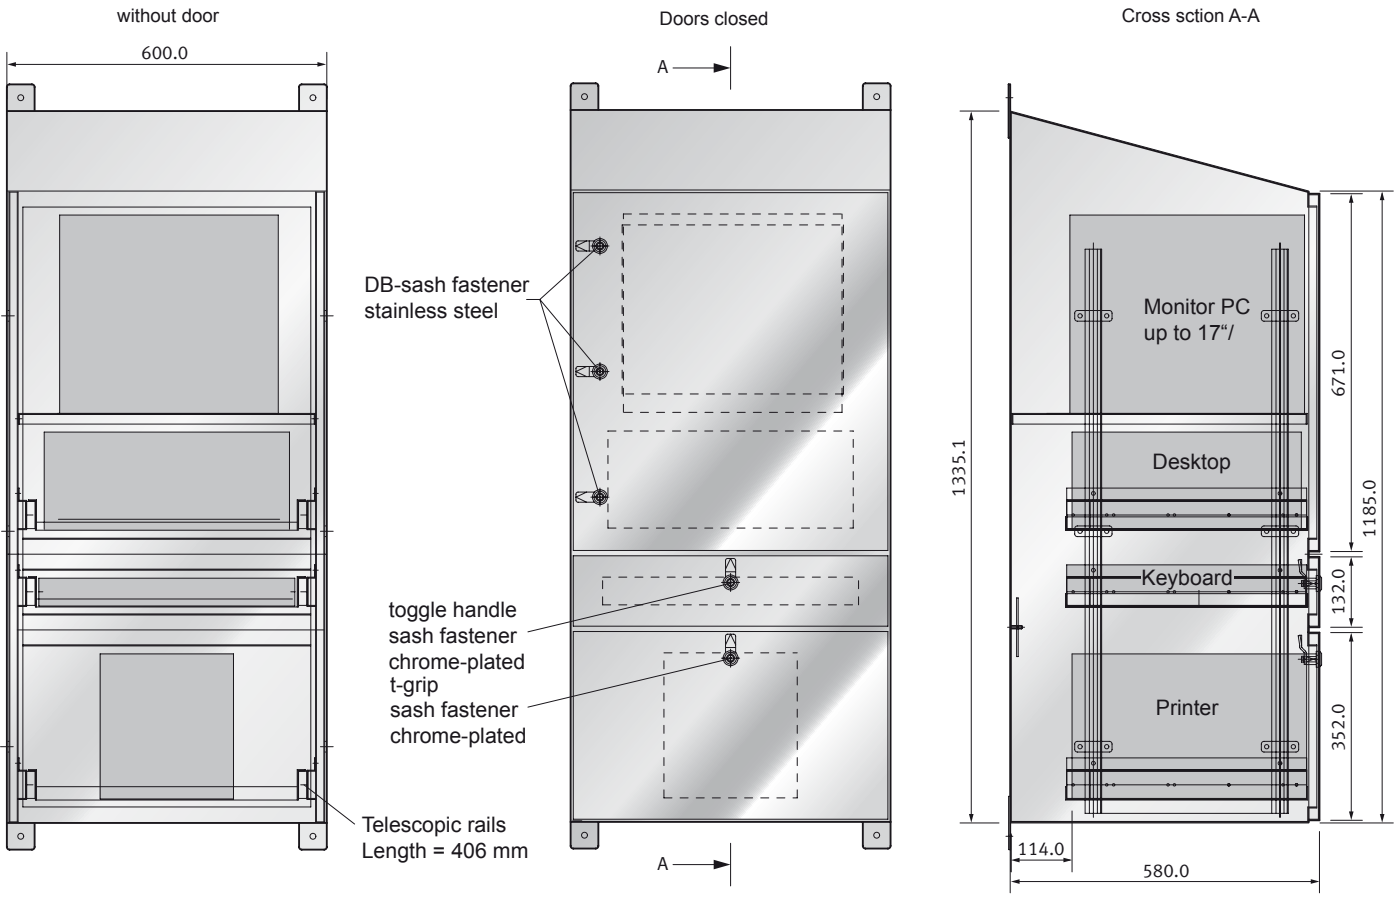

Each panel is designed as a fully extendable drawer with telescopic slide. The door for monitor/desktop is mounted on the right (180° hinges) and has a safety-glass window. The keyboard access flap is bottom-hinged and is limited to an opening angle of 90°. The printer access flap is bottom-hinged as well and hangs downward when opened.

The housing is provided with robust brackets. Alternatively, solid wall brackets or stand scaffolding can be provided for an additional charge.

Customized variations as well as other material qualities (1.4404 or 1.4571 – AISI 316L) are available on request.

# Design drawing and Dimensions

## PC-cabinet BDE

### Design drawing

Material	Stainless steel 1.4301 (AISI 304)
Type of protection	IP66 and IP69K available (IP69K = high-pressure jet resistant, Water jet 100 bar/80° C, Test time: 30 sec. per edge between door and housing and door lock)
Material thickness	2 mm
Surface	Fine grinding, grit 240
Grounding	according to VDE 0660

### Dimensions (in mm)

H (rear panel )	x	H (front side)	x	W	x	D
1335	x	1185	x	600	x	580
