

Outdoor stainless steel enclosures and cabinets

Outdoor stainless steel enclosures and cabinets are especially suited for difficult operating conditions. Choose from our enclosure series TX, EXE and Rex as well as from our FXE floor standing cabinets. These products can be used outdoors and form the basis for **custom designs**, which we can offer for **one or more pieces**. The protection types IP 66 and 69K offer safe protection from dust and water.

On request the products can also be equipped with special inside hinges, which offer effective protection against vandalism.

1.4301, 1.4404 und 1.4571 materials available. Further materials or additional custom paintwork are also available.

Submit your request, and we will respond immediately.
